

Chris was the videographer for my wedding. The video is amazing! It captured all aspects of the day perfectly from getting ready with my bridesmaids, to the ceremony and reception, and then our exit. The ceremony was especially exceptional with video from numerous vantage points that captured the entire sanctuary, including close ups of some of the guests. The finished product was beautifully edited with excellent musical selections that made the video come together. It even had "credits" at the end of the video listing the wedding party. I highly recommend Top 5 Productions to any bride. We will cherish our wedding video for years to come.
